Who's Right? Let's Talk It Through

COMMUNICATING

Tick the face that best shows how your learning went today.

How well did I communicate my mathematical thinking?

	 Not yet	 With help	 Did it well
I used correct mathematical language (e.g. <i>face</i> , <i>surface area</i> , <i>square centimetres</i>).			
I recorded my thinking using a drawing, diagram or labels.			
I chose a diagram or representation that helped explain my thinking clearly.			
I explained my group's conclusion clearly and logically to others.			

One thing I understand better now about surface area is:
